Professional summary

Aspiring Front-End Developer with experience in building responsive and interactive web applications using HTML, CSS, JavaScript, Bootstrap, and ReactJS. Currently employed at Techleafe Solutions, where I develop and optimize client-facing web applications, enhance user interfaces, and integrate APIs. Completed an 8-month internship at Icanio, where I gained hands-on experience and earned certification in front-end development. Adept at translating client requirements into technical specifications, ensuring seamless user experiences and optimized performance. Proven ability in communication, adaptability, time management, organization, and problem-solving. Eager to contribute technical skills and a collaborative spirit in a dynamic team environment.

Skills

- Web Technologies: HTML, CSS, JavaScript, Bootstrap
